

# 2012 Wilderness Trip Planner

This guide was developed to help wilderness travelers plan a wilderness trip, and understand and support the mission of the National Park Service...

*“...to conserve the scenery and the natural and historic objects and the wild life therein and to provide for the enjoyment of the same in such manner and by such means as will leave them unimpaired for the enjoyment of future generations.”*  
-The National Park Service Organic Act

It is with this idea, to preserve for the future generations, that we ask you to review and follow the guidelines, restrictions, and regulations set forth in the following pages as you prepare for your wilderness adventure into Sequoia and Kings Canyon National Parks.
